SPRINT REVIEW

- The task was finished because the product and sprint backlog were created. A sitemap and wireframe that serves as the blueprints of the website were also made.
- Next sprint should focus more on learning the languages needed to build the website.
- Study on how to create website and how to design them to make the website pleasing since poem website focuses more on the aesthetic and artistic feel.

SPRINT RETROSPECTIVE

Things that went well:

- Task were scheduled accordingly and the scheduled were followed

Problems encountered:

- No basis or format to follow with the task that needs to be done
- Confusions on the task that must be done
- Constant changes with the task

Problems solved by:

- Asking the instructor for clarifications or asking advices from classmates on what must be done

Things to improve:

- Listening skill
- Limiting time spent on unnecessary things
- Plan schedule way ahead of time
- Search for ideas early on to be able to start early
